## PROJECTS

### **java language based quiz application**

Sep 2023 - Sep 2023

<https://github.com/shitalkarek/java-quiz-web-application>

Quiz Application using Java Swing and Java AWT. A proper quiz application web app as a mini project, showcasing the power of Java Swing and Java AWT. Implemented features such as multiple-choice questions, timer functionality, and score tracking.

### **portfolio-website**

May 2023 - May 2023

<https://shitalkarek.netlify.app/>

- Developed a visually appealing and user-friendly portfolio website using HTML, CSS, and Bootstrap.

### **Dice Game website**

Mar 2023 - Apr 2023

<https://shitalkarek.github.io/dice/>

- Developed a mini project called "Dicee" using HTML, CSS, and JavaScript, showcasing proficiency in the Document Object Model (DOM). Demonstrated passion for learning by actively refreshing the web page to display the winner.

**Drum kit**

Apr 2023 - Apr 2023

<https://shitalkarek.github.io/drumkit/>

- Developed a drumKit mini project using HTML, CSS, and JavaScript. Implemented interactive functionality allowing users to play different instrument sounds. Utilized instrument images and words to trigger corresponding sounds.
